

TECHNICAL DATA SHEET

Characteristics	Specification
Item	Pressed Wool Felt Rolls
Felt Standard	SAE (F1) - International Standards IS: 1719 (Hard) - Indian Standards DIN 61 206: Tw-F2
Density	0.36 gm/ccm
Felting	On Kraft Goebal German Machine Lines
pH Value	4-8 (Neutral)
Color	Natural White
Vegetable matter	Less than 1%
Grade	INDIA BEAUTY
Size	2 mm to 20 mm
Wool Content	100% Scoured Merino Wool
Wool Micron	21.5 to 27.0
Environmental affect	No Harmful effect on environment or climate
Tensile Strength	Based on Density 600 psi
Split Resistance	45 N/CM
Temperature	120 to 180 degree Celsius
Tolerances	As per International acceptable levels Tolerances in Thickness: +/- 10%; Densities: +/- 10%
End Use	Packing, wicking, gaskets, metal wiping, lubrication, polishing etc
Declaration	We hereby declare that our product doesn't contain any harmful element or chemical and its totally safe
